

About AAAAChange, LLC

AAAAChange (pronounced 4-A-Change) is a consulting firm in Columbia, Missouri focused on facilitating positive change. We are social entrepreneurs who provide expert advice and facilitated change services based on the universal change process of the four “A”s: Awareness, Assessment, Action, and Accountability. We prize replicable solutions focused on self-help and the empowerment of the individual.

We have contracted with the Downtown Community Improvement District and the City of Columbia to do outreach to homeless and struggling individuals in the downtown Columbia area.

Our strategy is “solution focused”, we do not dwell on the events that led the individual to this point, but place our focus and energies into where the individual wishes to go and how we can help them move along that path. Our method is to reach out and introduce ourselves, after making an assessment we offer coaching and referral services that help individuals to help themselves.
